(54) Title: AORTIC VALVE IMPLANTATION DEVICE

(57) Abstract: This invention discloses a miniclip (10) apparatus for releasably stabilizing a leaflet (25) onto an aortic artery wall (22) during aortic valve implantation comprising a clip base (18) having a first clip member (11A) consisting of a plurality of first prongs (13) and an opposite second clip member (11B) consisting of a plurality of second prongs (14), wherein the first prongs and the second prongs are sized and configured for releasably clipping and stabilizing the leaflet in conjunction with the aortic artery wall; and an actuator assembly (12) operable using one hand located at the clip base, wherein the first clip member moves away from the second clip member when the actuator assembly is activated.

☐ Further documents are listed in the continuation of Box C.

☐ See patent family annex.

* Special categories of cited documents:

"A" document defining the general state of the art which is not considered to be of particular relevance

"E" earlier application or patent published on or after the international filing date

"L" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)

"O" document referring to an oral disclosure, use, exhibition or other means

"P" document published prior to the international filing date but later than the priority date claimed

"T"

later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention

"X"

document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone

"Y"

document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art
